### **Important Training Announcements**

- The Ohio Department of Job and Family Services (ODJFS) recently released some new training rules for individuals wanting to become foster parents and some minor changes for those who are already licensed as foster parents. The rule changes resulted in some pre-placement curriculum changes that required immediate staff attention. This in combination with the two year training plan being due to ODJFS soon, resulted in a delay in the training calendar being mailed out. We apologize for this delay.
  
- We would like to remind foster parents that children should not attend training sessions due to the topics being covered and the lack of supervision of children in the agency while the parents' attention is focused on learning. We understand that, at times, there are emergency types of situations that arise. If this applies to you, please communicate the issue to your Youth Specialist so that can be shared with training/supervisory staff.
  
- We would like to thank the foster parents who recently have attended on-going foster parent trainings and we appreciate the feedback given. We are pleased to see the good attendance and the support, interaction and learning that take place during these education sessions. The trainers regularly comment on how outstanding Agape foster/adoptive families are and they appreciate the participants' interest in learning new information to add to their parenting experience.
  
- One final note is to remind all families to register for the training they plan to attend. This will allow for our staff to call if training is cancelled due to an emergency or poor weather. We will not know to call you if you are not on the list.

***We Hope To See You At Training This Fall***
